

donorbox vs **stripe**

Features	Donorbox	Stripe
Form accessibility	Donorbox forms are officially AA-level-compliant with the accessibility standards laid out in WCAG 2.1! This means that our forms follow strict guidelines to ensure that people of all abilities are guaranteed access.	Stripe's dashboard has been made accessible with uniform color models that are compliant with WCAG 2.0 guidelines.
Security	Donorbox's industry-leading security features include automated fraud detection, 24/7 monitoring, postal code validation, reCAPTCHA on donation forms, blocking scammers, tokenization, protection from DDOS attacks, two-factor authentication, SSL/TSL encryption, and an expert security team.	SSL protection, PCI compliance, encryption, two-factor authentication, and fraud detection with machine learning.
Support	Donorbox has a 24/7, dedicated support team to address all your queries and issues, in addition to a portal where you get quick answers to hundreds of frequently asked questions on the tool and features.	Stripe provides support for payments, invoicing, billing, refunds, account-related issues, and other areas as well. They also offer 24/7 support for their customers.
Integrations	Integrate with CRM tools like Salesforce, Blackbaud RE NXT, and HubSpot. Native integration with Rock RMS for churches. Additionally, connect with 2000+ more apps and software via Zapier. Connect with marketing tools like MailChimp and ActiveCampaign, and Double the Donation for gift matching.	Limited integrations, not focused on fundraising.

Features	Donorbox	Stripe
Recurring Donations	Add recurring donation intervals (daily, weekly, biweekly, monthly, quarterly, annually) to your donation form and empower one-time donors to become recurring supporters of your organization.	Supports daily, weekly, monthly, and annual billing frequency.
Embeddable donation form	Create a smart, customizable, and conversion-optimized donation form specifically built for your fundraising success, that embeds directly to your website or can be added as a pop-up.	Stripe offers embeddable UI components including a Payment Element that helps accept multiple payment methods. However, Stripe isn't specifically built and optimized for fundraising.
UltraSwift™ Pay	Make your donors' giving journey seamless and 4x faster by offering quick digital payment methods like Venmo, Google Pay, Apple Pay, PayPal, Mercado Pago, etc., and eliminating the need to input their personal details.	Stripe offers digital wallet options such as Apple Pay, Google Pay, Cash App Pay, GrabPay, WeChat Pay, and more.
Text-to-Give	Let your donors give by sending a simple text message from their smartphones. Perfect for on-the-spot donation drives, church services, fundraising events, and conferences.	✗
Peer-to-Peer Fundraising	Put the power of fundraising in the hands of your supporters by empowering them to create personal fundraising pages dedicated to your cause.	✗

Features	Donorbox	Stripe
Event Ticketing	Create customized event pages and event ticketing forms to sell tickets online with the ability to highlight tax-deductibility, set ticket amount and a deadline to buy tickets, choose the currency to sell tickets in, share a QR code with potential attendees, ask buyers to cover processing fees, and more.	Stripe doesn't have an in-built event ticketing system.
Live™ Kiosk	Donorbox Live™ Kiosk is an app that easily turns your Android tablet into a giving kiosk and lets you pair it with Stripe's card reader devices to accept swift cashless donations. Plus, your donation data flows into the Donorbox database to help keep track of kiosk donations. This innovative product is meant to boost live and in-person fundraising at your location or events.	Stripe Terminal enables you to set up in-person checkout with developer tools and card reader devices like Stripe Reader M2, WisePad 3, and more. But using Stripe Terminal independently as a donation kiosk can be tricky, which is why you need a powerful app like Donorbox Live™ Kiosk.
Donor Wall	Add a virtual donor wall to your donation pages and embed it on your website to highlight your donors' support and create social proof for your campaigns.	✗
Goal Meter	Add a goal meter to your donation form or even embed it on your website to maintain transparency and encourage supporters to help meet your fundraising goal.	✗

Features	Donorbox	Stripe
Personalized Email Notifications	Customize receipt emails with a heart-warming thank-you for donations to your fundraising campaigns. You can also send customized year-end tax receipt emails from Donorbox.	✗
Membership Tiers	Add unlimited membership tiers to your monthly/annual membership campaign and inspire supporters to turn loyal members of your organization.	✗
Donor Management	Securely store and manage donor and donation data in the Donorbox database. Segment donors, get triggered alerts on important moments, add communication notes, update donor profiles, and integrate with CRM tools for more effective use of data.	✗
Gift Aid	If you're a UK-based charity, enable Gift Aid on your Donorbox donation form to maximize your donations. This allows your nonprofit to boost eligible donations by 25%.	✗
Gift Matching	Add a donation matching widget to your Donorbox donation form and enable donors to check if their employers would double/triple the donation. It's hassle-free on your end and donors receive all details from Donorbox to complete the process at their end.	✗

Features	Donorbox	Stripe
